

QuickCard: eCLAWs Agreement Types

eCLAWs is a simple contract and agreement workflow system that asks questions to help the user provide the right information needed by the Reviewer(s) and Signatorie(s) in order to process agreements requiring NU signature as quickly as possible.

eCLAWs contracts are routed based on the Purpose and Type.

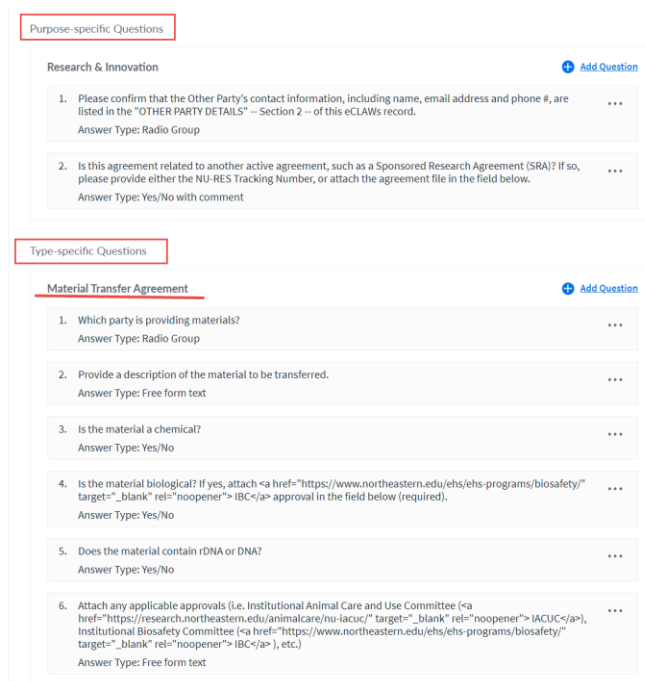

PURPOSE: Research and Innovation

Please note: in order to process prior approval requests (no cost extensions, carryover, etc.) a [Transaction](#) form must be routed to NU-RES for review. If sponsor approval is granted via an agreement requiring NU signature, an eCLAWs record will also be required to process the action.

Agreement TYPES:

Material Transfer Agreement (MTA):

- An agreement between two parties governing the transfer/exchange of physical materials from one entity to another. An MTA will address permitted uses, intellectual property, publication and ownership of all materials between the parties. MTAs typically do not include payment terms - Usually unfunded.

The screenshot displays the eCLAWs form interface. It is divided into two main sections: 'Purpose-specific Questions' and 'Type-specific Questions'. The 'Purpose-specific Questions' section is titled 'Research & Innovation' and contains two questions: 1. 'Please confirm that the Other Party's contact information, including name, email address and phone #, are listed in the "OTHER PARTY DETAILS" -- Section 2 -- of this eCLAWs record.' (Answer Type: Radio Group) and 2. 'Is this agreement related to another active agreement, such as a Sponsored Research Agreement (SRA)? If so, please provide either the NU-RES Tracking Number, or attach the agreement file in the field below.' (Answer Type: Yes/No with comment). The 'Type-specific Questions' section is titled 'Material Transfer Agreement' and contains six questions: 1. 'Which party is providing materials?' (Answer Type: Radio Group), 2. 'Provide a description of the material to be transferred.' (Answer Type: Free form text), 3. 'Is the material a chemical?' (Answer Type: Yes/No), 4. 'Is the material biological? If yes, attach IBC approval in the field below (required).' (Answer Type: Yes/No), 5. 'Does the material contain rDNA or DNA?' (Answer Type: Yes/No), and 6. 'Attach any applicable approvals (i.e. Institutional Animal Care and Use Committee (IACUC), Institutional Biosafety Committee (IBC), etc.)' (Answer Type: Free form text).

- Data Use Agreement - DUA (a.k.a. Data Transfer and Use Agreement – DTUA)
 - An agreement between two parties governing the transfer/exchange of data that has been developed by nonprofit, government or private industry, where the data is subject to some restrictions on its use (i.e. human subjects data). A DUA will address permitted

- **Funded Agreement - Contract:**
 - A contract is a procurement mechanism for procurement of a product or service with specific obligations for both sponsor and recipient. Includes contracts from federal, state, or local government. This includes contract modifications that don't obligate funds (e.g. change of PI, carryover mods, etc.), and incoming subcontracts under prime FAR contracts.
