

ePAWs 2.0 – Release Notes

Release Date: April 9, 2026

Overview

This release addresses a number of reported issues to improve notification accuracy, email display, and general system stability across the ePAWs 2.0 system. The updates below are organized by functional area.

Bug Fixes

Transaction Routing & Notifications

- **Transaction Route - Incorrect Stop Number in Notification:** Resolved an issue where the email notification for a transaction entering the second stop in the workflow was incorrectly displaying it as the third stop. (NEUEPAW-16205)

Funding Agency

- **Funding Agency Details - Error on Add Contact:** Fixed an error that occurred when attempting to add a contact from the Funding Agency Details page. (NEUEPAW-16207)
-

Improvements & Enhancements

Transaction Routing & Notifications

- **Transaction Route - Email Notifications:** Email notifications have been implemented for transaction routing, keeping relevant participants informed as transactions move through the workflow. (NEUEPAW-15952)
-
