

# ePAWs 2.0 – Release Notes

Release Date: June 11, 2026

---

## Overview

This release delivers a number of bug fixes and enhancements focused on sub-award management, contact data integrity, budgets, proposal status handling, and workflow improvements across the ePAWs 2.0 system. The updates below are organized by functional area.

---

## Bug Fixes

### Budgets & Financial Data

- **F&A - Unable to Save Amount:** Resolved an issue where users were unable to save an amount entered in the F&A field. *(NEUEPAW-16319)*
- **Error Adding Second Budget Period to Imported Legacy Record:** Fixed an error that occurred when attempting to add a second budget period to an imported legacy proposal or award record. *(NEUEPAW-16025)*
- **Legacy Proposals - Incorrect Automatic Credit Split for Lead PI:** Resolved an issue where the system was automatically assigning a 100% credit split to the Lead PI on Legacy proposals. This automatic assignment has been removed to allow for accurate credit split entry. *(NEUEPAW-16346)*

### Sub-Awards

- **Sub-Award Transactions - Alignment with Updated Sub-Award Functionality:** Resolved an issue where existing sub-award transactions were not reflecting the latest sub-award functionality updates. *(NEUEPAW-16350)*
- **Sub-Award Transaction Linked to Legacy Sub-Award - Error Resolved:** Fixed an error that occurred when a sub-award transaction was linked to a sub-award originally created in a legacy record. *(NEUEPAW-16359)*

### Routing & Workflow

- **Transaction Cannot Be Cancelled When Related Proposal is On Hold:** Resolved an issue where a transaction could not be cancelled when its related proposal had been placed on hold. *(NEUEPAW-16377)*

## Contacts

- **eCLAWs Contacts Not Loading to External Organization Profile:** Fixed an issue where contacts from eCLAWs records were not being collected and saved to the associated external organization's profile for future use. *(NEUEPAW-16351)*
- 

## Improvements & Enhancements

### Proposals

- **On Hold Status - New Discreet Proposal Status:** A dedicated "On Hold" status has been introduced for proposals, distinguishing records that have been placed on hold prior to completing the approval workflow from those that have been withdrawn or cancelled. *(NEUEPAW-15947)*

### Contacts

- **Contact Validation - Duplicate Prevention:** Contact validation has been improved across ePAWs and eCLAWs to identify and prevent the creation of duplicate contact records. *(NEUEPAW-16345)*
-
